

# BUCKET ELEVATOR

## THE WORK HORSE

*Designed and Engineered  
for Versatility.*

The Highest Performance at the Best Value!

# Our standard features, your specifications.

All TRAMCO Bucket Elevators incorporate our "total quality process" in the features you need to meet your specific product requirements.

Standard cleanup  
hopper interchangeable  
with hand slide on  
opposite side

Manual and rack and  
pinion operated boot  
clean out slides

Explosion hood to vent away  
from maintenance areas

Gravity take-up  
for automatic belt  
tensioning with jack  
bolts for belt alignment

Jack bolt for  
proper pulley  
alignment

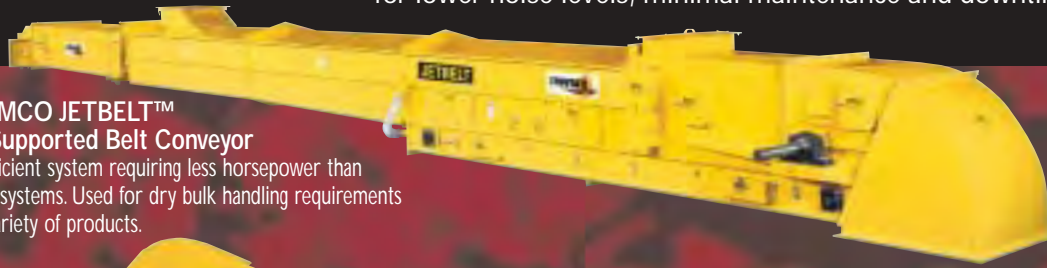

Quick opening  
access doors  
for liner inspection  
and throat plate  
adjustment

# TRAMCO...the world's most complete line of chain and enclosed belt conveyors.

TRAMCO conveyors and elevators, "The Quiet Ones" have become the standard of the industry. They are designed, engineered and built for hard work and long life. All models feature non-metallic flights for lower noise levels, minimal maintenance and downtime.

## TRAMCO JETBELT™ Air Supported Belt Conveyor

An efficient system requiring less horsepower than other systems. Used for dry bulk handling requirements in a variety of products.

## TRAMROLL™

Enclosed belt conveyor with innovative features such as; self-reloading and self-cleaning tail section, and multiple inlets. The heaviest duty design in the industry.

## TRAMCO MODEL RB

Designed for self-cleaning and quiet operation with a u-shaped trough for handling soft stock or materials that are easily crumbled or broken.

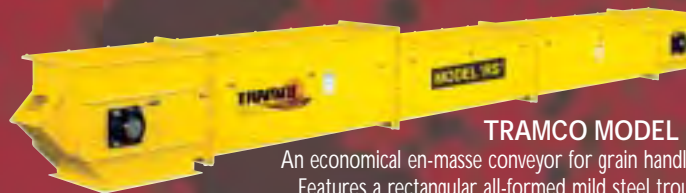

## TRAMCO MODEL G

Built standard with 10-gauge construction to accommodate large capacities of free-flowing materials. Provides years of trouble-free service under extreme applications.

## TRAMCO MODEL RS

An economical en-masse conveyor for grain handling. Features a rectangular all-formed mild steel trough. Available in 10-gauge, 3/16" or 1/4" construction. A hard worker for moving soft stock.

## TRAMCO BUCKET ELEVATOR The Work Horse

Centrifugal Discharge design used for the bulk handling of free-flowing fine and loose materials with small to medium size lumps. Built-to-last for the toughest requirements.

## TRAMCO BULK-FLO™

The heavy-duty chain conveyor designed specifically for processing applications such as; wet and sticky, varying sizes and densities, and abrasive or corrosive materials.

# BUCKET ELEVATOR

Built for strength and durability from the ground up.

## Head

TRAMCO Bucket Elevators have the same "built-tough-to-last" quality that goes into all TRAMCO products.

Centrifugal Discharge Bucket Elevators are designed and engineered for the bulk handling of free-flowing fine and loose materials with small to medium size lumps. The materials being handled are discharged by centrifugal action as the buckets pass over the head pulley.

We build our Bucket Elevators to meet your demanding requirements and to be the "work horse" you can count on for years of dependable service.

Split hood for easy replacement of liners

Elevator bucket service door placed to customer's specification

Explosion vent in sides of leg casing

## Legs

Engineered to utilize fabricated steel buckets. Plastic buckets are also available.

## Standard Paint

5-stage wash with durable 2 mil baked-on enamel finish over fully primed parts

Standard totally bolted construction with grade 5 cadmium plated bolts

## Boot

Standard packing gland shaft seal

Heavy-duty long life pillow block roller bearings

Conveyors Systems That Deliver!
